## Letter to Parents

Dear Anchor Family,

As preschool families, you benefit from our school auction. Last year we had new toy shelves built for our Butterfly and Bumblebee classrooms. This year funds will support our playground, which is loved by all! We have many items in silent auction beginning with bids as low as \$10. We also have an entertaining live auction of many experiences and treasures. Advanced purchase tickets are on sale now for \$40 through October 23. You are able to bill your school account to ensure you get your tickets.

Kindergarten through 8th grade parents, please contact the office next week to sign-up for your Parent/Teacher Conferences. They will be held Thursday and Friday, October 26-27. Please call or stop by the office to sign-up for a time that works for your family. The teachers look forward to seeing you.

We hope to see many of you at the Fall Festival on Saturday evening. Remember your warm clothes and chairs to enjoy the outdoor movie.

In Christ,  
Ms. Chandler & Mrs. Dean

## PARENTING TIP OF THE WEEK

If you and your spouse have different parenting styles, there's good news! Except in cases of abuse or neglect, our children can learn valuable lessons about real life from having parents with somewhat different approaches. That is...as long as we don't fight with each other in front of them. Fighting about different parenting styles does more damage to kids than having different parenting styles.

Experiment with the following tips:

- Agree that you each will parent in your own way, but you will never criticize each other's parenting techniques in front of the children. Your children need to know that you will back each other.
- Be prepared for the kids to complain about the treatment by the other parent. Practice your response. Here is an example, "Well, Dad has his own ways. I hope you learn to work it out with him."
- Remember that there is nothing that messes kids up worse than learning that they can manipulate their parents against each other.
- Allow your spouse to see you using Love and Logic and having more fun with the kids. If you refrain from forcing them to learn it, they'll be more likely to want to.
